SUMMARY Detail-oriented Website Designer/Developer with hands-on experience in Shopify and WordPress development. Proficient in HTML, CSS, JavaScript, and Liquid for building responsive and dynamic websites. Skilled in using JavaScript and Liquid for data fetching, improving website interactivity, and enhancing user experience.

EXPERIENCE **Full-Stack Developer, Freelancing** 08/2023 to Current

- Proficient in WordPress development using Elementor and WooCommerce, as well as Shopify, delivering responsive, visually appealing, and e-commerce-ready websites. Experienced in building and customizing websites with a focus on high performance, scalability, and user-friendly functionality.
- Built dynamic data-fetching features using JavaScript and Liquid, enabling real-time product updates and interactive content rendering.
- Created responsive, visually consistent front-end interfaces using HTML, CSS, and JavaScript, ensuring seamless usability across all devices.
- Applied strong debugging, testing, problem-solving, and analytical skills to identify and resolve issues across both front-end and back-end components.
- Optimized website loading speed and overall performance by implementing best practices based on Google PageSpeed Insights.
- Managed and configured Shopify apps, plugins, and theme customizations to meet client requirements and enhance platform capabilities.
- Implemented HTML meta tags with GMT timestamps, including expires and last-modified, to manage content caching, improve SEO, and ensure accurate time-sensitive content display.

Full-Stack Developer, LIBATATAMA Org. 01/ 2023 to 07/2023

- Utilized HTML, CSS, PHP and JavaScript to build clean, responsive, and interactive user interfaces that enhance overall website functionality and user experience
- Designed and managed databases using MySQL and Firebase, and deployed web applications on Hostinger to ensure efficient data storage, retrieval, and scalable performance.
- Utilized VS Code for efficient development and applied strong debugging, problem-solving, and analytical skills to identify and resolve front-end and back-end issues, ensuring smooth and reliable website performance.
